Fruits unaccompanied by labels bearing the following numbers

Gleason 108 Palicourea sp.
" 310 Palm indet.
" 315 Diospyros guianensis (Aubl.) Gürke
" 335 Vouapa sp.
" 358 Abuta sp.
" 359 Indet.
" 360 Indet. (Guatteria?)
" 362 Abuta sp.

HAG 442 Sterculia sp.
" 480 (2 pockets) Capparis sp.
" 541 Capparis (?)
" 756 Tetracera asperula Miq.
" 763 Vouarana guianensis Aubl.
" 801 Gustavia augusta L.
La Cruz 2029 Anaxagorea L.

These numbers from British Guiana are represented in our collection by the species listed above. Only 4 have been identified and these quite recently, which accounts for your lack of names with them.

HAGleason

#2029 is in your collection. I cannot tell about the others.

(Gleason)

De La Cruz Plants lacking determinations at the Gray Herbarium

Gleason numbers

✓315 Diospyros guianensis (Aubl.)Gürke

✓331 Couralia

✓337 Manettia alba (Aubl.)Wernh.
(det N.E.Brown)

349

✓421 Rudgea ? Hostmanniana Benth.

✓468 Psychotria iodotricha Muell.Arg.
(det N.E.Brown)

469

✓764 Borreria verticillata (L.)Meyer
(det Standley)

✓793 Anemopaegma Parkeri Sprague

797

Gleason

✓802 Ocotea Schomburgkiana (Nees)Mez

820

3872

✓3981 Aulomyrcia Schomburgkiana Berg

✓3989 Marlierea obtusa Berg

4102

✓4135 Clusia colorans Engl.

✓4196 Aulomyrcia Schomburgkiana Berg

✓4294 Marlierea obtusa Berg

✓4366 Marlierea obtusa Berg

✓4183 Sterile melastome, unidentifiable

The lowest number of La Cruz is 941. I infer that the earlier numbers in the above list are Gleason numbers, and I have reported them accordingly.

H.A.G. Apr. 25, 1927

rcd. May 11, 1942.

Gleason and LaCruz numbers lacking determinations at Gray Herbarium.

- 560 Philodendron Simsii Kunth.
